MEMORANDUM FOR THE RECORD

E-X-T-R-A-C-T

25X1 "3. [] NSA, General Counsel, called
25X1 this date about our reply to Senator Ervin's letter of 1 August 1969 concerning
25X1 personality tests. I agreed to furnish [] a copy of our reply and so
25X1 notified [] of the Legislative Counsel's office. In the course of
our conversation, I mentioned [] that we have over the past several
years reviewed our psychologic testing with a view to eliminating any questions
that would constitute in themselves a charge of invasion of privacy. It is
our feeling that our tests are now quite clean and pose no issue in the current
climate of invasion of privacy. Roy stated that for some time he has been
endeavoring to have the NSA psychological tests reviewed and adjusted so they
will not constitute an issue with the public or with Senator Ervin or anyone
else interested in this invasion of privacy field. He states that he has been
unsuccessful in this area but he plans to make a further attempt with the new
Director of NSA, Admiral Guyler. On the possibility that this may stimulate
25X1 into some action, I called [] and alerted him to the above."
